

Meet the Team

Steven Brand

An experienced and BAFTA Award winning Product Designer and Manager, Steven spent 16 years in the Entertainment and Devices division of Microsoft before moving into commercial software design and development focused on CRM and telecommunications products and services.

Steven is experienced in the design and associated testing of intuitive User Interfaces and Experiences.

David Cabanuik

David started his career as a Software Engineer in telecommunications (Radio) before moving into the CRM industry where he spent 8 years developing bespoke products within various CRM platforms. David more recently moved back into the telecommunications industry (telephony) and is skilled in Web & Desktop based application development.

Warren Doyle

Warren has been developing innovative software for over 8 years and specialises in both telecommunications and web development. As a creative developer, Warren enjoys turning ideas into fruition with the use of the latest web based technologies.

Paul Bulzacchelli

A Chartered accountant since 2002, Paul has operated a successful Chartered Accountants Practice since 2003 and has since diversified into other areas. Paul brings with him a wealth of business advisory experience where his advice has assisted the growth of various types of businesses
